**To:** Selina Jackson <selina@selinajackson.com>

I have been acquainted with Selina and her innovative methods of training teachers for over seven years. Her mastery of classroom management techniques and math models that identify all types of leaning styles has proven to produce successful results over the years.

I have had the opportunity to use many of the techniques learned in her workshop over the last six years and I often refer to the workshop binders and materials as I teach.

In short, I would recommend Ms. Jackson as an expert facilitator for any k-12 teachers' training needs. New teachers would benefit, particularly from her services.

Sincerely,

John F. Boyd
