To Whom It May Concern:

It is with great pleasure that I write this letter on behalf of Selina Jackson. I have known Selina for four years in a professional capacity. I cannot begin to express the change and growth that she has brought to my school(s) as a principal. Selina is a genuine winner and capable of walking the talk.

Selina's experiences in working with children and adults is exactly what we need more of in public education. Selina's work on learning styles is closing the achievement gap and making educational success a reality for all students. There is a "connection" that Selina makes with people from all backgrounds that allows her to be a real agent for change. Selina gives teachers the tools to provide instruction that is based upon each child's learning style. Less referrals, students more engaged and higher test scores are just a few of the positive results using her strategies.

She is warm and sincere and simply the best I have ever worked with.

My staff praises Selina for who she is and what she does. I would stand behind Selina's work 100 percent.

Sincerely,

A handwritten signature in black ink, appearing to read "Jeff Sipos", with a long horizontal flourish extending to the right.

Jeff Sipos  
Principal
